Policy Regarding Prescriptions, Procedure Orders, and Therapy Referrals

Prescriptions, orders, and referrals will not be provided outside of office visits. These documents should be requested via our patient portal, Intellichart. If you do not have access to the portal, we will be happy to provide you with a link.

We **WILL NOT** provide prescriptions, orders, or referrals on a walk-in basis. Our services are provided by appointment only. During your appointment time, you are our focus. You do not want your appointment time to be interrupted; neither do others.

Prescriptions will be handled within 48 business hours. Orders, referrals, especially for occupational and physical therapies, and other forms will be handled in the order in which they are received, generally within 3-5 business days.
